

Doris Howard Surles

February 22, 1931 - May 2, 2009

DORIS HOWARD SURLES (Momma Doris), was born to the late Telsie Bailey-Howard and Jarvis Howard on February 22, 1931 in Grimesland, North Carolina. After a lengthy illness she was called to eternal rest on May 2, 2009. She was the youngest of sixteen children. Momma Doris was educated and graduated from Dunbar High School. She attended and completed Cortez Peters Business School; she also attended two years of nursing school. She was a natural caregiver and loved caring for others. She was employed by Johns Hopkins Hospital, St. Joseph Hospital and City Hospital until her daughter became ill and needed her full attention. In her later years, she worked as a doctor's assistant and her last employment was with the March Family's establishment, Expressions Florist. At an early age she was baptized at Devenport Temple in Little Washington, North Carolina. After relocating to Baltimore, Maryland she became a member of Mount Hebron Church of God and Christ. Later she became a disciple of Zion Baptist Church with Christian experience from Miracle Baptist Church. Momma Doris was an active disciple wherever she held membership. Some of the ministry positions were Deaconess, Sunday school teacher, Choir Director, Woman of Faith and a devoted choir member at Zion Baptist Church. Through all of her illnesses her faith never wavered. One of her favorite scriptures was "...though He slay me, yet I will trust in Him." Through an early marriage she blessed with two children, Gaynell and Milton. In 1969, she later married her friend and love of her life James Edward Surles. After fifteen years of devotion and love James

went on to glory in 1986. Her children and grandchildren continued to be the love of her life. Momma Doris had a zeal for life and enjoyed every moment giving of herself and offering encouraging words of wisdom to everyone she met. Some of her favorite past time were spent: singing God's Praises, writing, cooking, ministering to the sick and shut-in by telephone and traveling around the nation with her daughter. She had a great sense of humor and she loved to laugh. She had a great passion for children, especially her "vitamins," her adopted great grand babies, Noah and Myeown. Doris Surles leaves to cherish her memory: her loving daughter, Gaynell Colburn; one son, Milton Hall, Jr.; daughter-in-law, LaFreda; two grandchildren, Milton Tyrell and Kayla Patrice Hall; one great-grandson, Jarvis Tyrell Hall; three sisters, Addie Roles (Miss), Virginia Fleet (Lil Babt), Mamie L. James; two brothers-in-law, Oliver James and Pete Perez (seven brothers and five sisters preceded her in death). Also left to cherish her memory are numerous "adopted" children whom she passionately nurtured and called her own, Joyce Howell, Sharon Foster, Jermaine Vaughn, Anthony Wade, Staci, Stormetta and "adopted" granddaughter Terri Nicholson as well as a host of other other loving relatives and friends.

“ My dearest Mommy, this is always a rough day for me watching you pass away the way you did just about killed me and I will always hate this day because it's the day when I no longer had you to hold in my arms. I love you. I miss you. I grieve for you even though I know that you were all right. I'm not not yet but I'm working on it and I know that you're fine. It's just the loneliness and all the things that I'm going through that are painful and hard and rough without you makes my life hard harsh and downright miserable. Also Joyce is sick again and in the hospital she has a bowel obstruction in her colon and small intestines I miss you my mommy and she does too so does Milton. We're all suffering in our own way. Your light was so bright. Your love was so deep and genuine that it has made a lifelong impact on us Mommy forever and thank God for you for the time he gave you to us, but I'm greedy and I want more time because it was just you and me and I'm lonely now and I'm grieving and I miss you. I know that you're fine. God has blessed you with eternal life and I'm praying to come to the point where I can actually celebrate all the days, but I just can't yet but I know that you're in heaven on the right hand of our Lord and Savior and I'm grateful for that but life down here without you especially it has suffered. I miss you and I need you. I miss your physical presence. I know I can't have it back so I trust in the Lord I lean on him for his all that I have and I love him with all my heart. God bless you, Mommy in heaven you are missed you are loved. You're appreciated respected cared about and as many good Achillis as I could give you, I give you now God bless you, I miss you, Mommy your baby girl always Gaynell

It was not a good day at all. I miss you and I love you. I thank God for giving me the best mother in the world for me designed just for me to hold me in your arms to feed me Jesus to love me to understand me to encourage me to motivate me and to always understand me even when no one else did, I love you, my mommy I will never forget you, and I wish you in heaven, the very best Mother’s Day in the world which I know it is because you’re with Jesus and nothing could be better than that. I love you, my mommy and I miss you. Happy Mother’s Day again with Jesus. You are my heart you’re always on my mind. I will never forget you and I never want to. I want to remember the good days the loving kind days the blessed days we had together the good and the bad we stay together. I miss that. I miss you my mommy so much more than I can say. I know the Lord is taking care of me, but I miss your physical presence your baby girl Always always yours. Today is Memorial Day a day when people go to visit the ones they loved at their final resting place. “ My dearest Mommy, this is the day that you had your final day here your home service was on this day. I can't tell you how painful this is so here I sit May 9 all by myself again I know the Lord is with me and I love him for that, but I miss you. I miss your physical being. I miss you being here to hug me to love me. Talk to me to encourage me and all the beautiful things that you added to my life because you are a beautiful person I love you mommy I miss you. I appreciate and respect you the best mommy in the world for me and I thank God for forgiven you my Gift Sunday is Mother's Day. I'm not sure how I'm gonna get through it but I will try and I will try to look up and I will try to smile for other mothers that are still here, but mommy it's so hard to live by yourself like this when I've never been alone and never been without you in my life at all Times Even when I was away we were on the phone the entire time until I got back but I try my best never to leave you by yourself thank you Mommy for your loving kindness for being here for me for being my mommy with loving here kindness for feeding me Jesus and teaching me For being patient with me and understanding me when no one else would or you knew what I had been through and you took care of me no matter what anybody else said Mommy was right there for me. God bless and keep you mommy. I miss you. Ask God to continue to bless you. They are in heaven in a very special way and I know he is. We miss you. Milton came by today. The first time that's ever happened and he bought me flowers. I was so overwhelmed. I just cried and thanked him and gave him big hugs and kisses. It meant so much to me my big brother to come by here and bring me flowers and say happy Mother's Day to me most people don't because I don't have any biological children, but I'm thankful that the Lord helped me to be able to raise to help raise my niece and nephew And then also Joyce's grandchildren what a blessing that has been I will miss you each and every day I will continue to serve the Lord praise him and look up to him for all things, but you know how I feel about you Mommy I never made the secret. I never went a day without hugs kisses and saying how much I love you and

asking you if you want anything or need anything I seem to not be able to give you enough because you are so special to me, but this day was the last day I saw you on earth and I know that you're gone to heaven you remains here and I plan to ride out maybe Mother's Day just to that spot so I can honor you whenever I get a chance bless you my mommy you are loved you are missed you are appreciated and you are definitely not just by me or by all who loves you really love you and I really really really love you God bless you happy Mother's Day, Mommy. I say it now and I'll say it again on Mother's Day.

“ My Dearest Mommy this is the day that the Lord took you home to to be with Him I miss you 😭 so very much May 2 this day the worst day of my life I understand why Lord took you home he was suffering so sick. I’ve never seen you suffer this way and for the first time when you were in the hospital, you weren’t able to talk to me before we talked every night and laughed and prayed and held you in my arms and we got hugs and kisses and I laid my head when your pillow next to you but this time you couldn’t talk to me he scared me so bad I didn’t sleep for five days, I didn’t eat and I’m scared to leave that room the hospital room and ICU at Johns Hopkins hospital was the worst time of my life. I lost my mind when you passed away. I lost myself. I couldn’t eat sleep. I was scared I was alone and I knew that when you passed away that I would be alone I wouldn’t say alone as far as the Lord is concerned because he’s always with me. He’s taken care of me and he’s blessing me and I love him, but people left me in. It was Mother’s Day the day after you were buried, and I was all by myself, cried until I fell out and no one was here. Everybody, my brother everybody left, and there was no one here with me. I’m thankful today that I learned to lean on Jesus they only hope our best friend and the love of my life. I’m grateful that the Lord gave me the best mommy in the world for me. I’ll miss you. I miss your hugs kisses your voice laughter your love you’re cooking me all my favorites whenever I wanted them your company you feeding me Jesus all the days of my life you would read to me when I was sick. You told me when I was lonely you hugged me when I was not myself at all and I was going through a whole lot. You encourage me and you talk to me through whatever it was I was dealing with you helped me you read to me you saying to me and you understood me like no one else did I have had a miserable life i’ve suffered almost all of it. My best days were with you in Hawaii, and we will never forget those years. I will never forget heaven Auntie Bea with us now she’s with you. I miss you mommy you will always be missed by me never forgotten. I know that the Lord has you in his arms singing on the heavenly choir that beautiful voice

and almost killed me to know that in your last age you couldn't sing, you had lost your voice you couldn't talk. It hurt me deep in my soul and wounded me watching you die, and I couldn't help you. I couldn't bring you back. I begged the Lord to heal you make you well so that you could be here with me a long time like granny was for you she lived to be 104 years old. I wanted you to live like that and she did not suffer she was not sick. I wouldn't want you to be here suffering and sick, but I would want you to be here with me. of sound mine like granny was able to walk and talk. Call on us. She was a true blessing in my life and my heart like you are you're my girls the love of my life and I shall never forget the love that you gave me. Oh well try not to be so lonely but 90% of the time I'm here by myself i'm scared a lot. I try not to be, but I am. It's a lot going on in my life Mommy, and I wish you were here to help me through. I trust in the Lord and I beg him for help for mercy and that's the only thing I know how to do now resting with Jesus is where you are now my granny auntie Bea, aunt Miss, and all my other aunties I miss you all, but I miss you most of all my mommy my love, my blessing I will forever keep you in my thoughts, and even though you're all right in my prayers because you've been a part of my life that has been the most wonderful lady mommy in the world everyone loved you, your laughter, and boy I tell you Thanksgiving, you did throw all the way down with the grub We ate really well when you cooked and you cooked a lot. I'll never forget the last Thanksgiving we had together, I was with you I never wanted to be without you but here I am Milton Aunt Miss Eriine and me I love you My Mommy Godbless

I always have sacrifices. There were so many and I just want to say to you through God in heaven, Jesus will pass my message on to you that I was so blessed a gift from God, the Lord Jesus Christ our Savior gave me you a woman who especially designed for me the best mommy in the world for me Thank you God thank you Jesus for giving me my Mommy Doris Howard and my granny Telsie B. Howard. I love you, Lord for what you did for me I will love them and you all the days of my life, and I will love you. Jesus more because you were here with me now, as they are resting in the arms of Jesus, I know that you were here looking out and looking over me, and I believe that you sent them to be my angels as well because we need angels in our lives. I love you, Lord. I miss my mommy. I miss my granny and I wish that things were different. You know we always know that when they're gone, we could have and should have done better in some areas, but we're not perfect, but I wish I had been because they were worthy of it, but they stuck by me they took care of me. They taught me they loved me. They appreciated me. They made me feel special. Those two women of God made sure that every good thing they had to offer they put it into me. I pray that someday I will be half at least half of the woman or women that they were Just want to know how to be better. “Happy birthday my dear Mommy I wish you were here. We could have such a beautiful time together as we grow old together what an honor that would be we never got that opportunity so many people that I know still have their mothers and their well in their 80s and up in their 90s and I did not have their opportunity to love on you take care of you and be with you like you and (Granny) had a chance to do I shall miss you until the day I die. I love you forever. I appreciate you I thank God for giving me you my money Doris Howard love you mommy and I miss you and I know that you're having a wonderful and glorious birthday with Jesus , there's no better place to be life is rough here but I thank him that he saved my life. I suffered oh how I suffered but he brought me to surgery without having to have a colostomy bag. I do have a new colorectal system and it's been relocated all of the adhesions scar tissue and everything that was in my colon that was bad. The colon itself was bad. It had narrowed, and then further up blocked. I got nutrition, and my potassium went down to two, and I almost died the god saw it to save my unworthy life and I'm grateful to him because there's no one good no one great but God , Jesus are heavenly father. I miss you. I love you and I wanted to take this opportunity to tell you a little bit about myself but also to say I miss you this birthday wish you a blessed birthday I know that this foolish but it helps me to be able to talk to you through these words and the Lord can take this for me and tell you about what's happening to me. I'm still kind of sick. My stomach is not quite right I'm not eating healthy and I think that's a big part of it. I think I need to take better care of myself but it's hard I'm paying people to help me clean up. I'm paying people to help me get in and out of my van. I'm paying people to do things for me that they should do from their heart like I would do for them, not looking for anything in return it doesn't work that way for me and my church they let me go. I've been at Pastor Wilson's church Israel Baptist I'm thankful to be there as often as I can. It is letting Service and I had to miss the service last night and it really bothered me, but I was asked months ago if I would speak , in honor of Ethel

Ennis she's a wonderful woman and a big part of my life and did great things for me. I also got a chance to perform and had no idea that I was the special guest for that evening chosen by Earl, her husband so I'm grateful I missed the chance to see Cable last night, but I'm grateful that she was in the house of the Lord where she needs to be she's pretty messed up right now like going on with her her lifestyle the people in it missing her mother and I'm want to wish her a blessed birthday as well but I love you my mommy I love you I love you I love you I miss you. I appreciate you. The time we had together was precious wasn't easy. It was never easy we went through so much together and you had to put up with a lot with me trying to get myself together and helping me to be my best but you did that every time you encouraged me you looked out for me you stood up for me you helped me to get myself together, and you fed me, Jesus every day reading the daily bread to me reading the Bible to me when I was critically ill I think God for you. I'm blessed by the fact that the Lord gave me a mommy that was perfect for me. Thank you Jesus hallelujah you're awesome and I thank you. God bless my mommy for me , God hug mommy for me please tell her these things in your own spiritual way as I speak to you through these words, Jesus, please let me feel your presence. Let me feel my mother presence through you help me so that I can go forward and things will get good for me , I have been suffering for a long time and I want to enjoy the rest of my life however, long or short, it may be of my mind and I believe the talents the gifts that you gave me as Zion doesn't want me Jesus does He is

“ Mommy, I love you I miss you and I've been through so much and it's been real hard real difficult more difficult than anything I've ever been through alone in my life we still would've been somewhere you could be with me, but I could feel your touch through the Lord and I thank him for that I want you to know that this sickness and the surgery Was the most serious and the longest and worst I've ever had I miss you mommy I love you and I'm so lonely the worst part about being home and being here cause I'm by myself I'm so so lonely and nobody really cares they all live in their lives and doing anything and laying back but they call chilling and they won't bother out of me like same as usual. If it wasn't for you, I wouldn't have anybody so now I don't have you I don't have anybody but I got the Lord And he's taking such good care of me. The Lord has been so good to me he's been there he's he work a miracle for me so I don't have to have a colostomy bag. Guy had a 7 1/2 hour surgery with a whole bunch of staples 120 but I know what God can do , he show me and when I feel lonely like this, I try to just lean on him and look for him and feel his touch but I'm so lonely. I have no one to talk to no one to hug no one to visit and I'm not eating properly but I'm trying to eat better because of the surgery. I'm not eating much , so I'm doing pretty good in regard to that I lost 40 pounds Mommy so I think God don't want to be sick to lose weight but I'm glad that prednisone weight is gone now I have to start over again heating proper meals drinking more water but I can't eat or drink much I can't my stomach is small and whole whole much I miss you my sweetheart my angel you're my angel and I miss you. I wish you could've been here to hold me in your arms I suffered mommy I really suffered and I know only one time I suffered like that that was when I had CDF colitis and you were there, but it wasn't like this this is worse And don't know how to say any other way. If I didn't have the Lord, I wouldn't have anything I need guidance I need help I need advice. I need hugs I need help in the house. Everything is all displaced. In this cluttered not dirty but cluttered. I'm having a hard time but I'm grateful I'm grateful to be alive. I'm grateful that I didn't

have to have that bag , grateful for the wonderful doctor to God send my way and I'm grateful that God gave me you to stay through my life with me until he took you home with him. I miss you mommy I spent almost 9 weeks in the hospital and then rehab, so it's been rough , but God is right here. The Lord is right here with me but I'm missing a human touch. I miss your touch. I miss you. I miss your loving kindness and your healing hands. Thank you mommy thank you Lord God bless you hallelujah and praise your name for giving me the best mommy in the world for me For her to be gone is like torture however, I understand and I know that you were here thank you Lord this may not be written perfectly, but mommy knows she always did understand my writing is misspelling and all that stuff and I know I'm not feeling my best but I'm doing my best. I'm trying hard , but I've never known loneliness like this before. It's absolutely heartbreaking it's torture and of course you know Stevie is still lying to me telling me he's gonna bring me out there to help me and he's gonna bring me out there to stay for a while to get better and he's the biggest liar I know I thought he was that kind of person but he has not kept one promise he's made to me , and that hurt me really deep but he's a man and not in my opinion right now a very good one because all you are is your word I have been the best person in the world but I try I'm trying to get better, but he just throws out lies and promises and then doesn't pick up the phone. Don't answer your calls don't respond don't tell you he can't do something , and hard for me hard on me because he's like everybody else. He just doesn't care, but Jesus cares.

“ Mommy, dear heart, I do miss you more than words can you say I have wanted to write you over and over again about the lawyers and the van and all they put me through but I couldn't because if someone picks it up and read it then I will violate my confidentiality, but mommy it's been horrible and I got real real sick and I'm real real sick now I have ulcerative colitis I also have a narrowing of my colon my colon has got a knowing that is dangerous. in addition to that doctor say that I have three abscess on my liver with fluid in them in and that the narrowing of the colon is the most dangerous because it could be hiding a tumor or maybe something worse like a colon cancer I'm not claiming that and that's not what they say that I have but it is dangerous and it can be very serious, I've been running a low-grade fever now for months since I started getting sick from the stress of these lawyers in this case regarding my van, those lawyers were tyrants they did horrible things to me said horrible things about me, but I can't share it publicly, but you know, God will tell you all about it I ask him to keep his arms around me and to send me your lead up prayers to help me. I need your help now mommy I wish you were here to hug me and hold me in your arms because I really need that I don't get any compassion here so I miss yours. I love you my dear heart God bless and keep you in heaven, I know that you are all right but I'm not. I love you my mommy. I wish you were somewhere you could be here but I know that's not possible I need you now to help me through some of this. I've been praying and the Lord has been blessing me. He's all I have now.

I’m so lonely without you I have no one to turn to, no one to ask their opinion to ask for help to get a hug. You show me some love and kindness no one no one called me on the second and no one called me today but then you and I will always a long together and they didn’t come Paul will pay us hardly any attention at all that either, so I may as well be honest they just weren’t there every once in a while, but I done didn’t leave you I couldn’t leave you I didn’t wanna leave you I didn’t want you to leave me alone. “ My dearest mommy, I miss you with all my heart. I miss your loving kindness, your hugs, your encouragement the way you believed in me and kept me going. I love the way that you continue to read to me the daily bread in the Bible that she did leave me when I was really sick in the hospital, what it felt like to be without you was unbearable that's the way it is now many days mommy I am so lonely. I have no one really to come down and look after me and hug me and tell me it's gonna be all right. Fix me a meal I don't even see , Milton, or the children lol I look around here and all the clutter so I'm trying to get rid of. I'm paying people to help me. Life was so much more beautiful and easy when you were here with me. I miss you my mommy I miss you I love you And I know you're all right but I'm not all right not yet because of the loneliness is harder to heal but everyone has their own lives and they live in them and even though they have close by I don't see them I see Joyce but I don't get to spend a lot of time with her other than taking her to the hospital or going to the store. She stays up in her apartment, and I'm down here by myself And I need love around me but it's not here. It's just the lonely room with the company of the television and long nights. I don't feel good mommy I got sick and it was horrible. I was alone most of the time you would never love me like that nothing would stay down , it was horrible four days I had the worst stomach virus and I was scared if you had been there you would've talk to me and help me and told me it's gonna be all right and you would've told me what word to say to Jesus so that he would heal me, and then I had COVID And it was horrible. I've never experienced anything like that before I had my mask on. I did all the things I was supposed to do. I've had all my injections vaccinations, but I still got sick because of a sick baby and sneezed in my face, so I'm just really , lonely without you I feel lost I feel scared and I think God for you and all you did for me and because you were my lifeline when I was abused as a child I grew up with the same need for you to be right there with me so that I could help me to feel whole and feel that everything would be OK mommy mommy mommy I miss your voice,

beautiful singer God will take care of me. I miss hearing you say the Jesus care, and all the other beautiful hymns songs from the Lord that you say I'm so sorry that you're not here so they can show you even more how much I love you. Some of my days weren't the best but you talk by me then you understood me no one else does they don't even like me like they told you before they tolerate me , but I loves not there. They don't show it but you always did I miss your food. I'm not eating properly. I can't digest my food and I'm not feeling good most of the time. God bless you in heaven, I know he's taking good care of you he took you for me And hurt more than anything has ever heard in my whole life. I'm facing a lawsuit with the van because the New Van threw me out backwards and put me in the hospital and his lawyer so hateful and mean and they're trying to destroy me. I have good lawyers and I'm just praying that they can win this case for me , I love you Mommy rest in Jesus and I know you're not suffering anymore. It's not your whole, no more pain and you can sing again and he gave you back your voice. I miss you. I miss you. I miss you. I miss your hugs and your love.

“ Happy Birthday my Dearest Mommy I love ❤️
you so much you are missed deeply on
your birthday. We did so many wonderful things

arms and you hug me. Give me lots of love and kisses and make
me feel special and loved and needed, I'm very lonely without you. I
don't get hugs and kisses. I don't get to love hardly at all people
care about me but it's not the same and some don't care about me
but I'm here anyway you are the best thing that ever happened to
me in my entire life and mommy made from God just for me and I
think God for you and for giving me you we had really rough times ,
but we stuck together and I am thankful for that. I miss your
cooking. I miss everything your smile, your singing, I know that the
Lord has restored your voice and giving you a chance to sing on
heavenly choir. I know that the Lord has blessed you I know that
you're in his arms and he's taking care of you. That gives me a
great deal of comfort , I may be lonely, but I know that you are right I
think God for everything he's done for me taking care of me,
keeping me taking me to serious illnesses and trauma a big
accident and everything since you've been gone the Lord has been
right by my side and even when you were here he always has been.
He's just missing your presence you're being here , you're talking to
me I've never been so lonely before in my entire life I have no one
really and I know that Joyce is close by but she stays in her
apartment at the hall and she doesn't sit with me spend time with
me here and I don't go up there very often at all maybe once a
month and she'll stop in or just to pick up something or go to the
doctors and the store I'm praying that that will change and that we
don't just go to the store together and those things but you and I we
went down to Attmans got corn beef sandwich and we had a good
time get your pickle and we hang out Riding around in the van
there's nothing in the world that can replace the times the love the
kindness the sweetness best things did you could ever do you did
for me and you were always there for me when I needed you always

*there for me when I wanted you, you traveled all over the nation with me to keep me from being alone, because I was sick while I was touring, but you took care of me and you went with me get on the plane and went with me And when I was sick in Texas and in the hospital with the ICU unit, you flew all the way there by yourself they can't be with me. I never forget never forget how good you were to me and I miss it. I miss you with all my heart I love you mommy God has already blessed you, but I say God bless you And keep you and keep his arms around me for you. Ask God to let me feel his presence and yours thank you Lord for my mommy. Happy birthday mommy have a blessed day. “ Mommy I’ve been very sick sense October I was unable to eat anything I spent my birthday alone I could eat for Thanksgiving or Christmas and prior to that I have been going through a lot of stressful painful circumstances and I thought and prayed of you every day but I didn’t rate somehow I feel that this is a comfort to me to be able to talk to you at this page the way I know I’m not actually writing directly to you somehow it is a comfort. I wish you had been able to be here to hold me in your arms I had a really rough time and no one was here for me and we always made a holiday so special especially Thanksgiving that was our day. My birthday was your day you always went all the way out fixing all my favorite dishes and doing all of my favorite things and saving up whatever you had to give to me. I still don’t know how you did that, but only you could pull that off. I can tell you there’s no one like you and not having you here with me has been the worst and the hardest challenge I’ve ever had to face in my entire life and I pray that I never have to face anything else this terrible again. When I come home to see you with the Lord I can’t wait to get one of those beautiful hugs and the sweet words. You be blessed my mommy, I know you are but be blessed from me and I hope and pray that one day soon I’ll be feeling 100% sorry I haven’t talk to you all this page for a little while, but I just couldn’t do it but I’m back and we’re going to have a chats birthday girl you with Jesus have a wonderful time there in heaven happy birthday again your baby girl Gaynell.

“Happy birthday my dear Mommy in heaven I pray that you're having a wonderful time and that each day I know it's special with the Lord but that this day is even more special and more blessed I can't tell you how much I miss you I can't express how much I love you I wish I had the words to explain everything this in my heart but I don't but I know that if you were here each day of this month would've been a very special day for you each day we would do something you like you want you need something I knew I wanted to give you like we always did the whole month was a celebration that's how special you are to me that's how special you'll always be to me I will love you until the day I die and I think God every day that he gave me the best mother the best mommy the best blessing he could've ever given to me wish you I don't have love in my life I don't have compassion Hhappy birthday my mommy in heaven I know that it is special there every day is wonderful in heaven but I hope that this day is shown to be your day and a lot more special than every other day there with the good Lord who's taking such good care of you hugs I don't have encouragement compliments I don't have anything or anyone in my life who makes me feel that I'm special and I really mean something but I remember how you were how much I was loved by you and some how that blesses me and I have the Lord who is taking very very good care of me he's keeping me he's forgiving me he's holding me up and he's taking care of me and I don't know what I would do without the Lord because he is all I have God bless you my mommy I miss you happy birthday in heaven love always always your baby girl Gaynell on as you sometimes call me gay I love it I miss your voice you cooking miss how special you make me feel like I'm at it and no longer have that I really don't feel that I matter I really don't feel that I'm special what is the far left here today or tomorrow it would make a bit of difference to the majority of the people in my life there are a few but not many and the ones that care are not close they're not close by then that accessible they're not here with me or for me I've been suffering a lot with sickness and it's not good because I panic I have

PTSD and I panic because there's no one here to help me but God holds me in his upper right hand he has mercy on me that's what I need grace mercy and favor from the Lord that keeps me going keeps me from falling all the pieces because you were the only person who really helped me and kept me reassured that Jesus was the answer you fed me Jesus and you let me know that no one nothing else could touch me or hurt me after all the things that my father did to me let me know that my father in heaven could take care of me in spite of old pain that Mia caused me and it still causing me stealing my identity I don't alter the dirty things that he's done to me in my life I miss you Mommy I miss you

“ I know it's been years but to me it's but a day
my heart has been devastated since the Lord
Ushered you away I know it's been years but to
me is but a day my heart has been
overwhelmed since the Lord took you home
this day I miss you my heart my life and my
home will never be the same God bless you my mommy
So I know you're in a better place this overwhelming feeling of pain
and grief seems not to just go away some days are better than
others but right now it's hard to bear looking around everywhere and
you're no longer there
There's something about a Mommy that takes your breath away and
that's why I know I feel this way
Mommy this was the worst day of my life matter what I do it doesn't
seem to go just right because you're not here I suffer through my
night and struggle through my days
I thank the Lord for giving me the best blessing of my life you a
mommy that was always with me Mommy you are missed you are
loved by me I miss you I love you

every day of my life because I need you to show me love and

A Special Daughter with Special Needs

From Mommy to my Baby Gaynell

Lord I thank you for my daughter my special little girl the cutest little thing you could ever want to see Gaynell weighed two pounds 3 ounces at birth had no hair eyebrows toenails fingernails eyelashes eyebrows just one smooth little angel she was a fighter from the first day of her life I feel so blessed to have her in my life she calls me mommy and I call her my baby I am honored to have my baby she has never given me any trouble is not hard to deal with and is always here when I need her and she'll give me anything my heart desires Gaynell is known as my shadow always right under my feet I never had to search hard to find her she is always at my beckon call I feel like the luckiest mother in the world though many don't understand what kind of relationship we have at hand God knows just what we had need of so he put a special daughter with special needs right in my hands as my baby would always say the Lord knew that through every thing she would go through child abuse the years of damage to her mind body and spirit as well as her mental abilities were severely damaged this abuse sent my child through torture torment and severe mental anguish and illness after enduring all of its she was injured by a drunk driver and now lives a life in a wheelchair no longer able to stand walk run away she loved to her injuries were severe her closed head injury sent her back to

special education for the second time the first time from the child abuse this time from the injury so in addition to the normal childhood teenage young adults and even adult every day issues one has to deal with Gaynell's was much harder for her to get through so the Lord knew He would have to prepare me to be the kind of Mommy that she would need I'm so thankful be able to be the kind of mother that a special child like mine would need but I give all the credit to the Lord for He is the one that prepared me for a long and difficult road my daughter went half the Lord taught me through His word how to best teach nurture bond with and love my daughter what a blessing to have a special daughter with special needs she has truly blessed my life Gaynell Mommy loves you

From Gaynell to my Mommy

Thank you Lord the perfect gift a special Mommy designed with me in mind for a special daughter with special needs. You see growing up a child with special needs God knew I would need a Mommy just like you. Mommy you were designed with me in mind by God because he knew how I would be. So hopefully this will help all to understand why you Mommy mean so much to me the bond we have is so special that is difficult for others to understand or to see but I will hold on to all you gave me I am grateful to the Lord for blessing me with a Special Mommy just for me.

“ *A KISS FROM MOMMY A kiss from Mommy- you'll never know how much this means to me. It wasn't just the kiss it was her show of love to me. Mommy, I would give anything in the world for just one more kiss from you. My life and my heart are so empty now that you are gone. If I could just have one more day to show you just how special you are to me I never took your love for granted. Every day we spent together was a special day. So many nights I held you in my arms. We cried together, we prayed together, we laughed together and we stayed together. Somehow even that doesn't seem to be enough for me. I pray that what I gave from my heart to you was good enough. I wanted to be the best daughter in the world for you because you were the best Mommy in the world to me. So when I went through my worst times, a kiss from you would always make my day because it came with so much love and compassion. There are no words that can explain. You would look me in my eyes and tell me that everything is going to be just fine. It's going to be alright you said and as long as you were with me it was. Without you Mommy my world has been turned upside down. I can't seem to get myself together, Mommy, but if I could have a kiss from you I know I would be okay. The nights are long and lonely. Without a kiss from Mommy I am slowly dying. I can't stop crying. My heart hurts, my mind is messed up, my life will never be the same. I struggle every day to try to go on without my Mommy. I need to hear the sound of her voice, see her smile, feel the love and the sweet loving kindness Mommy gave to me and all those she loved. It wasn't just a kiss from Mommy. It was the love she poured into me each and every day of my life. I don't know how I'll go on. Nothing is right. Everything is going wrong. I find it hard to go on. I know I sound like I have no faith, but when a Mommy like mine, who was my best and closest friend is gone, your heart, your world, your life and everything as you knew it is no longer the same and you are facing total devastation. People need to give me the love, support and time to learn how to go on without the loving kindness and support that she gave me every day and all the time. Mommy and I were never apart. We are a part of each others' heart. We did everything together. I look for her. I reach for Mommy in the night. I always took*

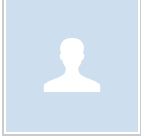

care of her. I never left her side. I miss sitting at Mommy's hospital bedside laughing, talking and looking at TV all night. We also cried. We prayed for mercy. We read the Bible every night. I'm hurt and in so much pain. I miss you Mommy. I can't eat, can't sleep and I lost my smile-the smile only you could bring out of me and was just for you. Mommy, this kiss means so much to me-more than anyone could know. We never got too busy to show each other how much we loved one another every day. There is always a kiss good night and a kiss good morning and lots and lots more kisses throughout the day. Because you are such a loving and kind Mommy, these words are effortless to say because Mommy you are love and you show it day by day. Oh, by the way Mommy your kiss would last me all day. Mommy you poured so much in to me with your kiss, your smile, your loving kindness, and your faith that never wavered. You fed me Jesus and taught me how to be an anyhow person, and even though I'm facing total devastation I know that all the work you did on me all my life will not be in vain. I know in my heart that if I keep looking, praying, listening, and keeping the faith as I walk through these dreary days, the Lord will grant me that one more kiss that I've been longing for from Mommy Lord please just one more kiss. “ To the Family of Doris Surles: My deepest sympathy to all the surviving family members. When a loved one dies, the grief can be very painful. It's ok to grieve and shed tears. Even Jesus shed tears when his friend Lazarus died. Just as Jesus resurrected Lazarus, God's spirit will empower him once again to resurrect many of our loved ones we have lost in death. May you take comfort in these thoughts and continue to endure. Psalms 55:22 says that God will sustain you and not allow the righteous one to totter or become unsteady.Again continue to endure this difficult time.##imported-begin##D. Fish##imported-end##

“ I send my deepest sympathy to the family of Doris at this most difficult time. One day we will no longer have to say goodbye to our loved ones, because Jehovah God promises an end to sickness and death forever. Isiah 33:24 promises that at that time, "No resident will say, "I am sick, and Isiah 25:8 promises that Jehovah will swallow up death forever and certainly wipe the tears from all faces. One day all of the dead ones in Jehovah's memory will awaken from the sleep of death to everlasting life.
