If you were with me today face to face
I never knew I could hurt like this
And everyday life goes on like
I wish I could talk to you for awhile
Miss you but i try not to cry
As time goes by
And It's true that you reached a better place
Still I'd give the whole world to see your face
And I'm right here next to you
But it's like you're gone too soon
Now the hardest thing to do is say bye bye

You know I didn't know this young man well but the first time I met him he had something about him that was very appealing and that was his smile, the same smile he had on his face when he looked at my neice, Nita and said he's gonna do the right thing by her and I believed him because when I saw those two together I saw a couple that was happy, I think they bought out the best in each other, only god knows what happened that day along with the trigger man but to the family Karma don't have an address so stay strong this to shall pass
