

Joseph L. Witherspoon Jr.

August 18, 2003 - August 30, 2025

A Tribute to a Life Well Lived

It is with profound sadness that we announce the passing of our beloved JoJo, whose memory will remain etched in our hearts forever. The journey of life is marked by moments of joy, com-*passion*, and purpose, and few have traveled its path with as much grace and dignity as he has. As we gather our thoughts and emotions, we reflect upon the legacy of a life that touched countless others, one marked by kindness, generosity, and an unwavering spirit.

Joseph Lee Witherspoon Jr. was born on August 18, 2003, in Baltimore, MD he was affectionately known as Jojo. He unexpectedly passed away on August 30, 2025. Joseph was the son of the late Joseph Lee Witherspoon Sr. and Angel Nicole Harp-Witherspoon.

JoJo spent his formative years in an environment rich with warmth and curiosity. From an early age, he exhibited a keen sense of wonder, eagerly exploring the world and forging connections with people around him. These childhood experiences helped shape his character, instilling the values of empathy and resilience that guided him through the years ahead.

He received his education in the Baltimore County Public School System, where he graduated from Kenwood High School and received his diploma.

Family remained at the center of his world. Whether gathering for holidays, sharing stories over dinner, or offering a comforting hand in times of need, his love for family was boundless.

Friends were welcomed with the same warmth, quickly becoming extensions of their circle of care. Those closest to Jojo recall a smile and laughter that would fill a room, wisdom shared at just the right moment, and countless acts of kindness that made every day brighter.

In his professional life, he started his career at the United States Postal Service. He left them to pursue an education in Computer Technology at Baltimore City Training Center, where he received certification in computer science. His final employment was with Bora Pharmaceuticals as a Medication Packager.
