“ I first met Tammy at Caliper and I would go in her lab and I thought “she looks important” lol. Then, once I started to talk to her, I thought “she is soooo smart!” One main person she always talked about-Omari! Then comes 2019 and boom, here’s Tammy at BioIVT! Tammy was my go to person. I must’ve gotten on her nerves with so many questions, but she knew ALL the answers! She took time to teach people as well! I will miss her sweet, kind, and gentle spirit. She never complained and always had a smile on her face. She still talked about Omari at work too lol. Mr. Patrick and Omari-thank you for lending us your angel during the day! Now she is in the Lord’s arms, free from all cares and anything she may have kept to herself. We may not understand why her time was cut short, but only God knows. God will give you peace that surpasses all understanding. Your family will continue to be in my thoughts and prayers.

“ Tammy aka T-money by the "Main Lab" crew was a wonderful light for us all at Caliper. I sincerely loved it when she would refer to me as "her guy" as I worked to power thru those assays. So blessed to have crossed paths with her. Sending my condolences to the family especially her prince, Omari.
