

Truxon Sykes

June 21, 1943 - April 15, 2006

TRUXON SYKES, social steward and philosopher, passed from lung cancer on Saturday, April 15th. Mr. Sykes will be sorely missed by thousands of Maryland residents who have benefited from his dogged determination to improve life for all people. He was a solid advocate for oppressed and exploited peoples. Truxon Sykes served with honor in the United States Army. He returned to Baltimore following this service to be involved in efforts to improve housing. This was followed by service as President and later Executive Director of the North East Community Organization and as an active member of the Pentridge Community Organization. Truxon helped found and support the Baltimore Homeless Union. While working with these organizations, Truxon helped thousands of people keep their homes, remain in them longer than developers wanted, gain repairs and improvements and obtain new homes. He was an important force in the development of 'drop in' shelters and permanent housing for the homeless in Baltimore and throughout Maryland. Truxon Sykes served as Treasurer of the White Lung Association and was very active to better the lives of those with asbestos disease. He was a consistent opponent of environmental degradation from toxic chemicals and an advocate of "Make the Polluters Pay". He recently represented the White Lung Association in Ottawa, Canada and Washington D.C. In addition to asbestos, Truxon's working life exposed him to harsh chemicals used in rocket maintenance and chrome and steel production. Truxon Sykes is known throughout the world as an advocate for the advancement of humanity. He

addressed hundreds of meetings and conferences. He published *The Body Universe* in 1991 and *A Guide to the Next Millennium* in 1995. The Concept of the Body Universe was summarized as "We all are one, We share the same Soul, We share the same Body - The Body Universe." In *The Use and Misuse of Universal Energy* (2004), Truxon stated his view of the purpose for our lives. "We should be educating the global society that we have a purpose. We are part of a system to prevent death on all levels of existence. We are only biological entity with the ability to understand the nature of our universe. This means all the life forms that can comprehend the functions of the universe are charged with maintenance of all that is within that universe. Our role is not rulers, but servers of existence." He is survived by his loving sister-in-law, Frances Sykes, cousins Agatha Lansey and Gloria Harrel (Richmond, Va.), and devoted friends Howard Bridges, Julia Montgomery and James Fite. In addition, there are thousands who loved him and shared his vision that to survive, people must use their capacity to preserve and improve life.

“ *Hello! Syke's ! May I take this opportunity to send my deep sympathy to u all in the lost of Mr.Truxon. Dying at the age of 63 years with so much more to accomplish in his life. We are living in the last days when so many things are happening in the world that many may wonder ,What does the future holds for mankind? The answe is found in the greatest book , the bible. Keeping our faith strong in the resurrection hope of the dead and living in a way to see them again will help us through our tribulation as 2 Cor.1:3 says may comfort from our heavenly father help. May all the cherished memories and he great things Mr.Truxon did stay close to your all heatrs. Sincerely, Lillian Crosby.##imported-begin##Lillian Crosby##imported-end##*

“ My deepest sympathy during your time of sorrow but know that the God of comfort is with you all during this time of tribulation. (2Corinthian 1:3-4) Due to the many unforeseen occurrences that brings tragedy to our lives Jehovah God promises one day soon Death will be no more (Rev 21:3-4) and his son have been given the authority to bring all those in the memorial tombs back to life. John 5:28-29 Just think there will come a time not only will death be no more but Jehovah promises that no one will have to say I'm sick according to Isaiah 33:24. I feel the need to express these words of hope because so many of us today treasure the gift of life and we do all we can to maintain it to hold on to it. That is why it hurts so badly when our loved ones die. With so many of us desiring life today no matter how good or bad it is we still want life here on earth. No one looks forward to that time of death. That is why I am under obligation by the spirit and love of God to share that hope that is in our near future that the righteous shall inherit the earth and reside upon it forever according to Psalms 37: 29 along with the above stated promises on a paradise and peaceful earth. We all can hold true to this everlasting promise because Isaiah 55:11 states all the words Jehovah have spoken WILL NOT RETURN WITHOUT RESULTS. What a wonderful prospect for our future especially enlight of the fact that Hebrews 6:18 States of God, it is IMPOSSIBLE for him to lie.##imported-begin##Carter##imported-end##

“ To the family and friends of Mr. Sykes I'd like to extend my heartfelt condolences. He sounded like a wonderful person who really cared about the plight of others. When someone like that dies, it seems so unfair since he could have continued to contribute so much in helping others. At such times as these, the bible can be a great source of comfort in helping us to understand why people die, but more importantly we can learn God's purpose to end sickness and death in the near future. Romans 5:12 tells us why humans die, and John 5:28,29 tells us the wonderful hope in store for the dead. It says: "Donot marvel at this, for the hour is coming in which all those in the memorial tombs will hear his voice and come out." That scripture and many others lets us know that they will be ressurected, and we will be able to be reunited with them in paradise conditions. I hope those thoughts bring you comfort as well as your cherished memories.##imported-begin##R
