“ I met Keith when we worked on a TDY project that took us from APG to Ft. Bliss in El Paso, Texas, White Sands Missile Range in Alamogordo, New Mexico, and Ft. Hunter-Liggett in California. We put in some very long days during that project, but it wasn't all work and no play. We were able to take a few days off once, and took a little side trip to Las Vegas. Pretty cool!

Upon our return to APG, I found that Keith had gotten assigned to the same group that I had been working for. We worked on even more projects then, and even his Mom was involved in the work we did.

Eventually our group got split up and we got assigned to work in different areas, but every once in awhile I had to stop in at Keith's location, and we would catch up about work and family.

It was great knowing Keith and working with him. He was a good friend that I will miss very much.

My sincerest condolences to his family and friends. We've lost a good one.

“ Keith and I worked together many years ago..in the 80's. But when we saw each other now and again at work or events, he never failed to take time to catch up, even if there wasn't really time. I never ever saw Keith without a smile on. Keith is a great friend and he will be missed by me and his ATC family. Love and prayers to Keith and his family. Kerry North.

“ Keith Grissom was a hard working, dedicated, employee at Aberdeen Test Center. Rarely did I hear him complain and he tolerated all of my instrumentation changes on those ranges he controlled.

And, a second thought - One summer, about twenty years ago, there was a volleyball tournament at an organizational picnic. Keith had an over-powering, killer serve that buried me on the back line!

He is a good man!
